Network Managers a NH Based Company Opens Rhode Island Office to Meet Growing Needs

Tilton, N.H. - The Network Managers & Trainers, Inc., a New Hampshire based technology company, announces the recent opening of its Southern New England Division headquartered in Pawtucket, Rhode Island. The new division will provide information technology services to its base of clients in Rhode Island, Connecticut and Southern Massachusetts.

The Network Managers & Trainers, Inc. is a leader in providing information technology services to small and mid-sized businesses throughout New England. The Rhode Island office will enhance the availability of support services for clients south of Boston and will support the continued growth of the company, which has averaged over 30% per year for the last 3 years.

“We are very excited to establish a local presence in the Southern New England area,” said Timothy Lang, President of The Network Managers & Trainers, Inc. “We are confident the additional staff and proximity to services will offer our existing clients a recognizable benefit, and will also attract new clients to the company”.

Matthew Mitson, an experienced systems engineer, and project manager will oversee the Rhode Island office as the Director of the Southern New England Division. Matt is experienced with software and hardware installation, implementation of VPNs, wireless networking and general IT support. “We have a lot of loyal customers in this area and we are excited to offer them the focused attention that comes with local presence,” said Matthew Mitson.

About Network Managers

The Network Managers & Trainers, Inc. is a New England based technology company specializing in system implementation, internet and managed network security services for small to mid-sized businesses.
